

## ***Music and Transcendence***

### ***A six-day intensive course in Holotropic Breathwork***

With Vicky Nicholson

---

**3<sup>rd</sup> – 8<sup>th</sup> June 2018, Poatina Village, Tasmania  
Australia  
A Grof Transpersonal Training Module**

This workshop is an exciting and transformative journey through the world of music. Sound and rhythm have always been vital creative and spiritual tools for transformation. Music has even been called the language of the soul. This is a special opportunity to learn first hand the role music plays in the healing potential of Holotropic Breathwork.

In addition we will explore strategies for integrating the Holotropic perspective as a tool for everyday living.

#### **Topics include:**

- 1) The role of music as a tool for transformation
- 2) How to create a Holotropic Breathwork music set
- 3) Group work: history, theory, practice and challenges
- 4) COEX Systems: how to work with multi-level patterns
- 5) Facilitator self-care
- 6) Running your own workshops: venue, pricing and marketing

This six-day workshop includes **four Holotropic Breathwork sessions**, as well as art, music, group and integration work.

Participants will have the opportunity to experience Holotropic Breathwork, a powerful approach to self-exploration, transformation, and healing that combines breathing, evocative music, and release work to explore the deeper dimensions of the psyche. This workshop will be useful to both laypersons and professionals seeking a more authentic and fulfilling lifestyle.

This will be a very experiential workshop. Besides the breathwork itself, all of the teaching is geared to participants having a direct experience of their own journey. We will work with music, film and ritual practice to engage the Holotropic principles in a very personal, embodied way.

### **The Workshop:**

The workshop is a full time, live-in intensive, designed for anyone with a deep interest in Holotropic Breathwork™ and Transpersonal Psychology. It may be credited towards the seven modules in the Grof Transpersonal Training program for certification as a Holotropic Breathwork Practitioner. This is also a valuable experience for those people who do not wish to become a practitioner. Included in the module will be a combination of personal experience with Holotropic Breathwork, facilitation of others on a one to one basis, group sharing and other experiential practices.

**Please Note:** Contraindications for Holotropic Breathwork are pregnancy, heart disease and other cardiovascular problems, epilepsy, glaucoma, or a history of severe emotional disorder or hospitalisation.

**Vicky Nicholson, Ph.D.**, has a passion both for Holotropic Breathwork and education. She has worked on staff at GTT training modules since 2005 in Australia and the US and coordinates the Australian modules. She is particularly interested in working with her community and learning to live the Holotropic principles and paradigm of moving towards wholeness as a daily spiritual practice in every-day life.

She is an educator in Tasmania, Australia and works alongside Aboriginal people to support teachers and students to improve educational outcomes, particularly for Aboriginal children. Teachers are encouraged to explore and live from an increasingly holistic worldview, as understood by Aboriginal people, to more fully realise their potential as educators for themselves, their students and school communities.

Vicky's PhD dissertation addressed 'Questions of knowing and pedagogic relationship' that examines the relationship between effective teaching and how we know ourselves.

She is particularly moved and filled with gratitude to be allowed to be a witness to people's deep journey work as they venture into their soul through Holotropic Breathwork, as she herself has been witnessed and supported by others on her own journey.
